Beginning Google Maps Applications with PHP and Ajax

The Google Maps API remains one of the showcase examples of the Web 2.0 development paradigm. In fact, interest in the Google service is so strong that it arguably sparked the mashup phenomenon. This is the first book to comprehensively introduce the service from a developer perspective, showing readers how they can integrate mapping features into their Web applications. Proceeding far beyond creating a simplistic map display, readers are shown how to draw upon a variety of data sources such as geocode.us and the U.S. Census Bureau's TIGER/Line data to build comprehensive geocoding services for mapping any location in North America.

In praise of the greatest job in the world The right book at the right time: an impassioned defense of teachers and why we need them now more than ever. Teacher turned teacher's advocate Taylor Mali inspired millions with his original poem "What Teachers Make," a passionate and unforgettable response to a rich man at a dinner party who sneeringly asked him what teachers make. Mali's sharp, funny, perceptive look at life in the classroom pays tribute to the joys of teaching…and explains why teachers are so vital to our society. What Teachers Make is a book that will be treasured and shared by every teacher in America—and everybody who's ever loved or learned from one.

Rethinking Cyberlaw

Featuring the most current exploration of cyberlaw, CYBERLAW helps students understand the legal and policy issues associated with the Internet. Tackling a full range of legal topics, it includes discussion of jurisdiction, intellectual property, contracts, taxation, torts, computer crimes, online speech, defamation and privacy. Chapters include recent, relevant cases, discussion questions and exercises at the end of each chapter. Using a consistent voice and clear explanations, the author covers the latest developments in cyberlaw—from cases to legislation to regulations.

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

The new media industry needs the producer who manages, the director with creative vision, and the writer who documents the development process. This comprehensive book is a practical, skills-oriented book for the producer, director, and writer of multimedia. It provides readers with a sound grounding in the concepts of interactive design, and then takes them through the step-by-step process of developing the multimedia product. Written with a professional orientation, this book teaches readers how to create multimedia faster, better, and less expensively. It also can act as a procedure manual for the reader's company. Topics include: Interactive, non-linear, multimedia design; the development process; games and educational products. For any multimedia professional, in particular CD-ROM developers and publishers.

The text offers comprehensive coverage of cyberlaw and related topics using an accessible writing style, up-to-date coverage, and an entrepreneurial-process orientation and will fulfill the needs of future professional business managers for whom start-ups, the Internet, and innovation have continuing and increasing importance. Widely expected to become a foundational text for experiential business law courses, Cyberlaw will help prepare students for the fundamental legal challenges of startups as well as of small- and medium-sized enterprises. By following the progression of a business from idea to formation and financing to operations (including asset development and acquisition) to hiring and, finally, to the exit phase, future managers will gain insights into the kinds of decisions managers must make at every step. Students will become engaged in the topic through case analyses, examples, ethical and international perspectives, carefully constructed pedagogy, and other features, such as practice pointers, Twitter thread stories, and more. Features: The text organization observes the chronological pattern followed by a startup/entrepreneur, providing a cohesive guide to the build-out of a business. Traditional cyberlaw topics are given comprehensive coverage but always in a business context. Cutting-edge and seminal cyberlaw cases are carefully selected and edited for readability and clarity. Important topic content includes chapters on IP; social media; data privacy; and government regulation. Other up-to-date coverage includes promoting inventiveness and innovation; data security; new venture planning, fiduciary duties, and crowdfunding; and malware, data breaches, and criminal procedure. Each chapter contains a feature focused on cyberlaw issues and dilemmas, using Twitter as a case study. Wherever appropriate and relevant, international perspectives and ethical organizational behavior are integrated into the discussion. Pedagogical features, placed strategically throughout the text, include concept summaries, case questions, exhibits and tables, hypothetical ventures to illustrate points, and dynamic end-of-chapter features such as chapter summaries, manager's checklists, key terms, short case problems or questions, and web resources. Learning objectives align with AACSB standards and Bloom's Taxonomy for assessment purposes. Cutting-edge cyberlaw cases discussed include People v. Marquan M (cyber-bullying, 2014) and Riley v. California (cell phone searches, 2014).
With the expansion of the internet and the world wide web, comes the very real potential for loss of control of intellectual property of all kinds, whether text or graphic, whether copyrighted or trademarked. In addition, business and financial issues, as well as social issues such as privacy and obscenity are also covered. Through the use of case studies and analysis, Cyberlaw presents a wide variety of legal and ethical issues relating to internet law and intellectual property protection.
